

Shelter in Place

How to shelter in place if instructed to do

During time of emergency, you could be asked to shelter-in-place. Follow these simple rules to make sure that you and your family are safe.

Move inside immediately.

Close all windows and doors, locking them.

Turn off all ventilation.

Close any type air vent.

Enter a central room in your home where you have placed your SIP Kit.

Cover windows, doors and vents with prepared pre-cut plastic and duct tape.

Listen to your local EAS radio station on the radio in your SIP Kit.

Follow instructions immediately when told to shelter and when told to end shelter. If you feel you would not be able to follow sheltering instructions request the help of a neighbor, family member or friend.

DO NOT call 911 unless there is a life-threatening situation such as a heart attack.

DO NOT go to your child's school. The schools will protect your children.
